Sprint 4 Report, SlugPings, Team: The Good Squad, March 16, 2018

Actions to stop doing:
We should stop creating merge conflicts by modifying other people's files. We should stop working on tweaks and instead work on the main functionalities.

Actions to start doing:
We should start fixing merge conflicts as soon as possible. We should start pushing more often to the github repository.

Actions to keep doing:
We should continue working on communicating with each other when we are unsure of things. We should continue working at the current pace as that is what is best for the team at the moment.

Work completed/not completed:
Completed: (User story 1) As a user, I want there to be a chat to communicate with the public members.
Completed: (User story 2) As a group leader, I want there to be a group specific chat so that the public cannot invade my group's privacy.
Completed :(User story 3) As a user, I want the chat log to be persistent so that I can come back and review the logs incase I forget something.
Completed :(User story 4) As a new user, I want to see the frequency data of the map so that I can have a better idea of the popularity of each event (at each marker).
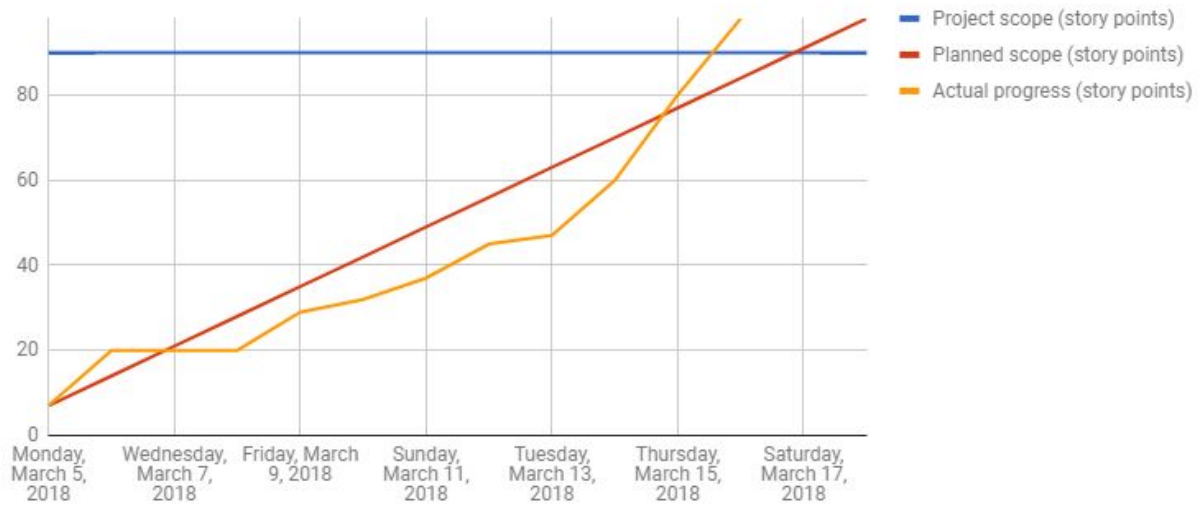

Work completion rate:
Prior sprint (upcoming)
- DONE (no more springs)

Previous sprint
- 4 users stories
- 90 ideal story points
- 14 working days

Sprint 4 Burnup Chat

Total across all sprints:
> Average user stories/day: ~0.23809523809 user stories / day
> Average work hours/day: ~4.9 hours / day
